

I understand Sinclair is making a concerted effort to force all of its TV stations to air a 40 minute program that can only be called a right wing propaganda film. My hope is you have the power to at least delay their action, until it can be reviewed and certified as news, not a political ad. Political ads are certainly allowed, but they must be paid for, and if the station does not charge its usual rates, then it is a contribution, which must be reported as such. This is definitely a hot potato. Hopefully your management can and will handle this in a straight forward, courageous way. Sincerely, Pres Griest
